The mission of Williamsburg Place and The Farley Center is to provide a superior continuum of care, in a safe and therapeutic environment, for those adults and their families who are experiencing problems related to the use of alcohol and/or other mood altering chemicals.

The Farley Center offers a five day per week program; partial hospitalization. A twelve step based rehabilitation program which utilizes more intensive groups and individual psychotherapy approaches in addition to more traditional modalities including educational activities.

The Pavilion at Williamsburg Place offers medical withdrawal, typically referred to as "Detoxification" or "Detox" which is a comprehensive, medically managed approach used to transition a patient from physical dependence to abstinence. The medical staff is trained in managing complicated withdrawal, as well as medical and psychiatric concerns.
