The Pain and Symptom Management Clinic seeks to improve the quality of a patient's life by helping to manage his or her pain. Works primarily with cancer patients or those who are in need of palliative care. The clinic is committed to enhancing patient education and offer a wide range of medication management options. It also offers other techniques, such as physical or occupational therapy, psychological and spiritual support.

The Mission of the Massey Cancer Center is to serve the Commonwealth of Virginia as an internationally recognized institute of clinical, educational and research excellence dedicated to improving the quality of human life through the prevention, control and cure of cancer.
