The American Cancer Society's Just For the Guys program helps men cope with cancer of any type by offering community-based education and support. This group is for patients only, not caregivers. A core component of the program is self-help and/or group support. Volunteers organize these free monthly meetings where speakers and participants learn and share information about prostate cancer, treatment, side effects, and how to cope with prostate cancer and its treatment.

Currently, the group meets virtually on the 3rd Thursday of each month. You can register at the Life With Cancer website.

Please visit the [Life with Cancer website](#) to find days and times support groups are offered.
