The Woodland Park community at VMRC is a licensed nursing care home that exceeds Virginia Department of Health required standards and is Medicaid certified. Its eight residential homes have the total capacity for 85 beds. A care plan team of interdisciplinary members including a physician medical director and registered dietitian coordinate the clinical and therapeutic individual plans to promote independence in a supportive environment. Residents enjoy home cooked meals in the houses as well as numerous activities and trips with staff.

Woodland Park homes are comfortable and bright, and residents may surround themselves with familiar and treasured items, enjoying the outdoors through courtyards and front porches.
