The Virginia Oncology Associates in Suffolk offer:

- Medical Oncology - Medical Oncology is the treatment of cancer with medicine, such as chemotherapy, hormones and other injected or oral therapies that target cancer cells.
- Hematology - Hematology is the study of blood and blood-forming tissues and the study of the nature and treatment of diseases of the blood and the blood-forming organs.

Treatments and services include Outpatient Chemotherapy, Immunotherapy, Targeted Therapy, Hormone Therapy, Radiation Therapy, Clinical Laboratory, Education Resources and Financial Counseling. Each cancer is different for each patient and so is the approach used to treat that cancer.

The staff of Virginia Oncology Associates all have access to clinical trials and research through their affiliation with US Oncology Research, directly through National Cancer Institute Cooperative Groups, Eastern Virginia Medical School, the Duke Oncology Network, and other major cancer centers.
