Korean Community Service Center of Greater Washington (KCSC) promotes the physical and mental well being of Asian immigrants through two community health clinics, one in Fairfax county and the other in Montgomery County Maryland. KSCS also provides health education through seminars, lectures and workshops and advocates to improve the community health care system.

KCSC holds annual community health fairs in the Fall for uninsured or low income families. Mental health outreach, depression screenings and information about available resources is provided at local Korean churches.

Please call for more information.
