The Georgetown Lombardi Cancer Center offers diagnostic technologies to diagnose, stage and monitor cancers, including high-resolution spiral CT, MRI and PET scans, along with state-of-the-art pathology services. The array of treatment options includes cancer surgery, chemotherapy, hormone therapy, monoclonal antibody therapy and radiation therapy. Comprehensive education and support services are an integral component of patient care.

Lombardi Cancer Line: Call 202-444-4000 to reach a registered nurse, certified in oncology, who can provide information on cancer screenings, diagnoses, and treatment options. Ask questions about risk, second opinions, and symptoms. All calls are confidential.

[Visit the website](#) for the direct number to schedule an appointment for a specific department (e.g., Hematology/Oncology, Gynecologic/Oncology, Bone Marrow Transplant, etc.).
