The Virginian also offers a memory care wing to meet the needs of otherwise healthy residents suffering from the early stages of Alzheimer's disease and related dementias. The unit is not designed for residents who wander.

The all-new Shenandoah community has been designed with stages of memory loss in mind. There are color-coded cueing, wayfinding 'neighborhoods,' a private beauty salon, personalized memory boxes, interactive artwork, and a dual-themed reminiscence courtyard allowing a resident to 'relax in the backyard' or 'walk in the park,' all within a secured setting.
