This Agency is a recipient of the Behavioral Supports and the Complex Health Supports Provider Specialty Designations.

Community Residences (CR) operates four mental health residential programs in Arlington County that are open only to residents of Arlington County. The programs span a continuum of housing options from the least restrictive residential settings that are transitional in nature to more supportive assisted living facilities for individuals with mental health diagnoses who require more intensive assistance. Our

philosophy is to strive to provide a normalizing, home-like environment, where we assist consumers in learning skills that promote community tenure and integration, better health management and opportunities to fully engage in their recovery process. Varying levels of care are provided depending upon the intensity of need and include supportive services, coordination of medical needs, therapeutic services, nursing care and assistance with daily structure.
