English

Habitat for Humanity relies on volunteer labor skills such as carpentry, painting, concrete/masonry, sheet rock, electrical, plumbing, heating, landscaping, clean-up and more. Anyone with construction skills can contribute a block of time, but you do not have to have a particular skill; there is something for everyone to do. Volunteers can work in the ReStore located at 1417-D South Main Street in The Shoppes at College Park.

Habitat volunteers partner with qualified families and donors to provide housing for needy families.
