The National Alliance for Caregiving is dedicated to providing support to family caregivers and the professionals who help them and to increasing public awareness of issues facing family caregivers.

To help caregivers find the information they need to take care of themselves and their loved ones, the Alliance is supported by the National Caregiver Advocacy Collaborative, which is a network of state and national caregiving advocates working together to identify and address complex issues surrounding family caregiving

across the lifespan.

In addition to sharing best practices and strategies, the Advocacy Collaborative helps advance caregiving policy priorities that support and improve the quality of life for all caregivers. Explore the National Caregiver Advocacy Collaborative's [Charter](#) and monthly meeting materials to see how these advocates are creating sustainable change.
