Touch of Grace can provide companion care in your home. Caregivers who are screened, trained, insured and bonded are available to provide non-medical care for our loved one, whether an adult diagnosed with Alzheimer's or a child that has special needs. The schedule can meet your family needs: from a minimum of 4 hours to multiple hours per day.

Companion care services can include playing games or cards, reading materials, discussions, taking walks, visiting friends or family, scheduling appointments, gardening, assistance with arts and crafts, light housekeeping and household services like making beds, laundry, medication reminders, and running errands and shopping. Providing transportation to doctor, library, is also available.

The office has an accessible entrance.
