Westminster-Canterbury on Chesapeake Bay provides a memory care assisted living unit. The assisted living facility provides assistance with activities of daily living for adults who require assistance with at least two activities of daily living. This level of service includes individuals who require assistance because of significant behavior problems. Facilities licensed for the assisted living level of care also may provide care to residents who require only the residential level of care.

This True LifeCare community offers accommodations at every level; independent living, assisted living, and nursing care. True LifeCare, protects the resident's assets from the potentially catastrophic costs associated with long-term assisted living and nursing home care. And with a simple monthly fee, the resident has predictable monthly expenses, even when health services are required.
