Affinity Care of Virginia offers Palliative care (CPR) services to support loved ones as they undergo aggressive treatment for their medical condition. Affinity's CPR team includes a social worker, nurse practitioner, physician, and support staff who develop a comprehensive plan that connects your loved one to resources, helps ease their adverse symptoms, and helps them to live as comfortably as possible.

CPR services include:

- visits and phone consultations by a palliative care nurse practitioner
- social worker home visits
- around-the-clock access to triage
- care coordination with PCP and specialists
- spiritual and emotional support
- connection to community resources

Palliative care is appropriate for persons suffering from life-threatening or chronic illnesses. It allows you to seek the intensive care you need while receiving support for yourself and your family at home.
